

COMMERCIAL CLUB WANTS JEFFERSON

NEW HIGHWAY DIRECTORS WILL HEAR OF SAINTS ADVANTAGES.

CITIES HAVE DOUBLE SIZE OF INTERSTATE

More Population Assures Better Garage and Hotel Facilities—Towns Convenient Distances Apart.

Maryville is going to let the board of directors of the new Jefferson Highway from St. Paul to New Orleans know that this city and the Saints Highway are on the good roads map. A delegation from this city and all the important towns along the Saints route will go to the next directors' meeting in Kansas City.

They may lose, because the president of the interstate highway through Bethany and Lamoni is on the board of directors. But at least the fight will be worth making, and the members will be plentifully supplied with the reasons why the Saints Highway is better than the Interstate.

The matter was taken up today at the weekly luncheon of the board of directors of the Maryville Commercial club, which is leading the fight for the routing of the Jefferson Highway over the Saints instead of the Interstate highway from St. Joseph to Des Moines.

W. R. Jackson, secretary of the club, has been in telephone and letter communication with Savannah, Hopkins, Bedford, Lenox, Creston and other important towns along this highway, and a representative delegation from the Saints highway is expected to present the following good reasons why the Saints highway is the preferable.

Reasons for the Saints Route.
The total population of the towns along the Saints highway is double those on the Interstate. The distance from St. Joseph to Des Moines is about the same in each route, but the important towns along this highway, and a representative delegation from the Saints highway is expected to present the following good reasons why the Saints highway is the preferable.

The larger towns on the Saints give promise to the tourist of better garage and hotel facilities and many other advantages. The Saints highway is known to be less hilly and better kept up along the whole route than is the Interstate.

Trenton, Chillicothe, Braymer and Excelsior Springs are making a fight to make the route from Des Moines to Kansas City through those towns, leaving St. Joseph to the west, so a number of good fights are expected at Kansas City when the directors of the Jefferson highway meet.

And the members of the Maryville Commercial club intend to see to it that Maryville also is shown to be a live town and after all the good things.

HADLEY OUT FOR SENATOR

A Formal Announcement of the Former Governor's Candidacy Made at Kansas City Saturday.

The formal announcement of Herbert S. Hadley, former governor, as a candidate for the Republican nomination for United States senator from Missouri was made Saturday. In his announcement, Mr. Hadley said that he felt confident he would be equal to the burden of the campaign, "but did not propose to enter into a contest of financial or physical endurance to secure the nomination," but expected next spring to go before the voters and tell where he stood.

This announcement now means that the Dickey-Hadley fight is on in the G. O. P. ranks. Some weeks ago Walter S. Dickey announced his candidacy.

Washington, Nov. 22.—Unless President Wilson makes concessions to the Republicans of the house of representatives which will virtually allow them to write the national defense schedules, it seems certain at this time that the program of preparedness as outlined by the administration is doomed to sure defeat.

The situation is already critical, so far as the original plans are concerned, with Majority Leader Kitchin definitely opposed and James R. Mann of Illinois, leader of the Republicans in a critical attitude.

Democratic leaders are apprehensive that the party will be split widely on the issue in the next congress.

ATTRITION ON THE EASTERN FRONT.

From the Chicago Journal.

Petrograd reports that during the last month the Russian armies have taken more than 50,000 prisoners, officers and men, from the Austrian and German forces. Berlin and Vienna claim about one-third as many Russian prisoners during the same time. At this rate the balance on the eastern front has been going against the central powers at the rate of 1,000 per day on prisoners alone.

At one time, while the Germans were still smashing forward on the eastern front, they alone lost 61,955 in a single week, very few of whom were prisoners.

Of course, the Russians are losing, too. Now that they are taking the offensive, they must be paying a heavier toll of killed and wounded than the Teutonic allies; enough more, perhaps, to counterbalance their better luck in taking prisoners. But Russia has more men to lose. Her trouble from start to finish has been lack of equipment, not lack of soldiers. In a war of attrition, especially when played as Gen. Ivanoff is playing it, Russia's bulk is bound to tell.

Hudson Maxim says that Germans are being born six times as fast as they are being killed, and that the nation's supply of soldiers cannot be exhausted with such a birth rate. According to Mr. Maxim's argument, if two million soldiers are killed in a year there are twelve million future soldiers born. But if such figures were true, it would take not less than sixteen years to make a soldier of a new born babe if he were sound and healthy and remained so. During this time, if two million men were killed each year for the first eight years, there would be no men, soldiers or any other kind, left in Germany, and the enormous birthrate must likewise

UPHOLDS NEW TOWN PLAN.

Supreme Court Says Commission Form of City Government Does Not Conflict with Constitution.

The supreme court of Missouri in an opinion handed down yesterday upholds the law passed by the legislature of 1913 providing a commission form of government for Missouri cities.

All Missouri cities are operating under charters provided by the state legislature. At the 1913 session the League of Missouri Municipalities framed a law by which a modified form of the commission government could be adopted by any Missouri city by a vote of the people. The law provided for a Mayor and two councilmen for cities from 3,000 to 12,000 a mayor and three councilmen for cities of from 12,000 to 20,000. Kirksville voted to adopt this form of government and some of those opposed to the plan appealed to the courts and said that the law was unconstitutional. The supreme court decision was in the Kirksville case. Other Missouri cities hesitated to adopt the new form and operate under its provisions until

the court had passed on the matter.

Judge Bond wrote in his opinion the following in the way of comment: "The chief excellence of the commission form of government is the concentration of municipal power in the hands of a few men or responsible agents who usually are put at the head of the several departments necessary to the conduct of the business of cities."

The salutary measures enacted by the legislature of this state on this subject reflect credit on that body and result in the protection of urban life and the promotion of civic betterment. The act under review was devised, and in our opinion will contribute, to these ends and was enacted under full constitutional warrant."

FOR BOOKER T. WASHINGTON.

Charles L. Martin Spoke of the Late Colored Leader at A. M. E. Church Last Night.

Charles L. Martin read at the A. M. E. church last night the following: "Since we last met in this house of worship, the leader, not only of our race, but one of the foremost citizens of this nation—that Christian gentleman and educator, Booker T. Washington—has passed away, bringing to us and each of us an irreparable loss. Thousands of the best citizens of this country gave their lives in the great

civil war that the shackles of slavery might be removed from our bodies and those of our ancestors and this great man gave his life and the power of his keen and mighty intellect in an effort to remove the shackles from our minds and in building us into a race of honorable and useful citizens.

"I ask now that each member of this church pause and on their bended knees offer a silent prayer and return thanks to our God in heaven for this great life, dedicated as it was to our uplift and upbuilding, and ask His special blessings upon the widow and loved ones to whom Mr. Washington's

death brings the most direct loss."

TRY "CASCARETS" FOR LIVER AND BOWELS IF SICK OR BILIOUS

Tonight! Clean Your Bowels and Stop Headache, Colds, Sour Stomach.

Get a 10-cent box now.

Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and bad colds—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels, or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret tonight straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken.

From linoleum you'll see Gold Dust causes the dirt to flee.

One reason for the great popularity of Gold Dust is its activity.

It dissolves quickly in hot or cold water, and purifies in addition to cleaning. Millions of housewives are using Gold Dust regularly for cleaning everything from linoleum to the choicest silver and woodwork. A tablespoonful dissolved in a pail of hot water is the recipe for proper use.

APPROPRIATE CHRISTMAS GIFTS.

See Yourself as Recipient and Don't Give Useless Gifts.

See yourself as the recipient when you plan a Christmas gift. Give the woman who has to use her wits to make ends meet a small luxury she thought out of her reach. Present the woman of wealth with an inexpensive remembrance, something so small that she will enjoy it by very contrast. Don't always give slippers to an old man or shawls to an old lady. Remember that big, masculine women sometimes have a penchant for minute, exquisite handwork; and that small, romantic women like things pertaining naturally to bigness and romance. Try to make your gifts add something to life. In other words, put your heart and your imagination into your giving. —Mac Rae D. Campbell in the December Mother's Magazine.

NOTHING IN LUXURIES

Spending money on luxuries is just like burning it. There is absolutely nothing to show for it, not even the feeling that you have gotten your money's worth.

COMMERCIAL CLUB WANTS JEFFERSON

NEW HIGHWAY DIRECTORS WILL HEAR OF SAINTS ADVANTAGES.

CITIES HAVE DOUBLE SIZE OF INTERSTATE

More Population Assures Better Garage and Hotel Facilities—Towns Convenient Distances Apart.

Maryville is going to let the board of directors of the new Jefferson Highway from St. Paul to New Orleans know that this city and the Saints Highway are on the good roads map. A delegation from this city and all the important towns along the Saints route will go to the next directors' meeting in Kansas City.

They may lose, because the president of the interstate highway through Bethany and Lamoni is on the board of directors. But at least the fight will be worth making, and the members will be plentifully supplied with the reasons why the Saints Highway is better than the Interstate.

The matter was taken up today at the weekly luncheon of the board of directors of the Maryville Commercial club, which is leading the fight for the routing of the Jefferson Highway over the Saints instead of the Interstate highway from St. Joseph to Des Moines.

W. R. Jackson, secretary of the club, has been in telephone and letter communication with Savannah, Hopkins, Bedford, Lenox, Creston and other important towns along this highway, and a representative delegation from the Saints highway is expected to present the following good reasons why the Saints highway is the preferable.

Reasons for the Saints Route.
The total population of the towns along the Saints highway is double those on the Interstate. The distance from St. Joseph to Des Moines is about the same in each route, but the important towns are so separated that it is just a convenient run between them on the Saints.

The larger towns on the Saints give promise to the tourist of better garage and hotel facilities and many other advantages. The Saints highway is known to be less hilly and better kept up along the whole route than is the Interstate.

Trenton, Chillicothe, Braymer and Excelsior Springs are making a fight to make the route from Des Moines to Kansas City through those towns, leaving St. Joseph to the west, so a number of good fights are expected at Kansas City when the directors of the Jefferson highway meet.

And the members of the Maryville Commercial club intend to see to it that Maryville also is shown to be a live town and after all the good things.

PROGRESSIVES TO HAVE TICKET.

The situation is already critical, so far as the original plans are concerned, with Majority Leader Kitchen definitely opposed and James R. Mann of Illinois, leader of the Republicans in a critical attitude.

Democratic leaders are apprehensive that the party will be split widely on the issue in the next congress.

ATTRITION ON THE EASTERN FRONT.

From the Chicago Journal.

Petrograd reports that during the last month the Russian armies have taken more than 50,000 prisoners, officers and men, from the Austrian and German forces. Berlin and Vienna claim about one-third as many Russian prisoners during the same time. At this rate the balance on the eastern front has been going against the central powers at the rate of 1,000 per day on prisoners alone.

At one time, while the Germans were still smashing forward on the eastern front, they alone lost 61,955 in a single week, very few of whom were prisoners.

Of course, the Russians are losing, too. Now that they are taking the offensive, they must be paying a heavier toll of killed and wounded than the Teutonic allies; enough more, perhaps, to counterbalance their better luck in taking prisoners. But Russia has more men to lose. Her trouble from start to finish has been lack of equipment, not lack of soldiers. In a war of attrition, especially when played as Gen. Ivanoff is playing it, Russia's bulk is bound to tell.

Hudson Maxim says that Germans are being born six times as fast as they are being killed, and that the nation's supply of soldiers cannot be exhausted with such a birth rate. According to Mr. Maxim's argument, if two million soldiers are killed in a year there are twelve million future soldiers born. But if such figures were true, it would take not less than sixteen years to make a soldier of a new born babe if he were sound and healthy and remained so. During this time, if two million men were killed each year for the first eight years, there would be no men, soldiers or any other kind, left in Germany, and the enormous birthrate must likewise

Made in a Great Modern Factory, It is Clean, Pure,
Wholesome and
Satisfying

FRUITY-SWEET IN FLAVOR

When you put a chew of tobacco into your mouth, you want to be sure that it is clean and pure.

Plug tobacco is the most wholesome and satisfying form in which tobacco can be used, and Old Kentucky is the cleanest, purest of plugs. It is made in a modern factory—spotlessly clean and perfectly sanitary.

Then, too, in Old Kentucky you get the mellow taste of the most deliciously mild tobacco leaf that grows.

Old Kentucky is made of the choicest Kentucky Burley, each leaf being selected with more painstaking care than is the case with any other plug tobacco.

And the pure flavor of that leaf is carefully retained—you get the real Burley taste.

Chew Old Kentucky for genuine chewing satisfaction.

cease altogether. Germany has been a wonder in the matter of husbanding her resources, but we are not ready to believe that the manhood of the country can be maintained indefinitely when killed at the rate of two millions a year.

Governor Spry of Utah may have been correct in believing that Hillstrom had been justly convicted of the crime of murder, but the governor's letter to the president of the United States also convicted the governor of discourtesy and incivility.

A world of satisfaction is secured to some American ladies by the use of foreign labels in American trimmed hats. Some milliners order these labels by the gross at a cent or so each and sell the hat for from ten to twenty-five dollars more.

Just to show that she was very neutral, Mrs. Galt ordered a German deal-

er in New York to purchase gowns for her wedding trousseau in Paris. French dressmakers, however, won't furnish garments any more to German dealers, and thereby hangs a story. It is suspected that she would have been just as acceptable to Woodrow in an American made gown.

UPHOLDS NEW TOWN PLAN.

Supreme Court Says Commission Form of City Government Does Not Conflict with Constitution.

The supreme court of Missouri in an opinion handed down yesterday upholds the law passed by the legislature of 1913 providing a commission form of government for Missouri cities.

All Missouri cities are operating under charters provided by the state legislature. At the 1913 session the League of Missouri Municipalities framed a law by which a modified form of the commission government could be adopted by any Missouri city by a vote of the people. The law provided for a Mayor and two councilmen for cities from 3,000 to 12,000 a mayor and three councilmen for cities of from 12,000 to 20,000. Kirksville voted to adopt this form of government and some of those opposed to the plan appealed to the courts and said that the law was unconstitutional. The supreme court decision was in the Kirksville case. Other Missouri cities hesitated to adopt the new form and operate under its provisions until

the court had passed on the matter.

Judge Bond wrote in his opinion the following in the way of comment:

"The chief excellence of the commission form of government is the concentration of municipal power in the hands of a few men or responsible agents who usually are put at the head of the several departments necessary to the conduct of the business of cities.

"The salutary measures enacted by the legislature of this state on this subject reflect credit on that body and result in the protection of urban life and the promotion of civic betterment. The act under review was devised, and in our opinion will contribute, to these ends and was enacted under full constitutional warrant."

FOR BOOKER T. WASHINGTON.

Charles L. Martin Spoke of the Late Colored Leader at A. M. E. Church Last Night.

Charles L. Martin read at the A. M. E. church last night the following:

"Since we last met in this house of worship, the leader, not only of our race, but one of the foremost citizens of this nation—that Christian gentleman and educator, Booker T. Washington—has passed away, bringing to us and each of us an irreparable loss. Thousands of the best citizens of this country gave their lives in the great

civil war that the shackles of slavery might be removed from our bodies and those of our ancestors and this great man gave his life and the power of his keen and mighty intellect in an effort to remove the shackles from our minds and in building us into a race of honorable and useful citizens.

"I ask now that each member of this church pause and on their bended knees offer a silent prayer and return thanks to our God in heaven for this great life, dedicated as it was to our uplift and upbuilding, and ask His special blessings upon the widow and loved ones to whom Mr. Washington's

death brings the most direct loss."

From linoleum you'll see Gold Dust causes the dirt to flee.

One reason for the great popularity of Gold Dust is its activity.

It dissolves quickly in hot or cold water, and purifies in addition to cleaning.

Millions of housewives are using Gold Dust regularly for cleaning everything from linoleum to the choicest silver woodwork. A tablespoonful dissolved in a pail of hot water is the recipe for proper use.

APPROPRIATE CHRISTMAS GIFTS.

See Yourself as Recipient and Don't Give Useless Gifts.

See yourself as the recipient when you plan a Christmas gift. Give the woman who has to use her wits to make ends meet a small luxury she thought out of her reach. Present the woman of wealth with an inexpensive remembrance, something so small that she will enjoy it by very contrast. Don't always give slippers to an old man or shawls to an old lady. Remember that big, masculine women sometimes have a penchant for minute, exquisite handwork; and that small, unromantic women like things pertaining naturally to bigness and romance. Try to make your gifts add something to life. In other words, put your heart and your imagination into your giving. —Mac Rae D. Campbell in the December Mother's Magazine.

NOTHING IN LUXURIES

Spending money on luxuries is just like burning it. There is absolutely nothing to show for it, not even the feeling that you have gotten your money's worth.

Can you afford to do this? Wouldn't you rather have the money today that you spent yesterday for luxuries?

This bank will take pleasure in helping you conserve your interests, and invites the accounts of all earnest people.
